## COMPACT SCALES

# CST Compact Weighing Scale

## Features

- High mobility:** battery operation, compact, light weight construction, it is suitable for the use in several locations (kitchen, sales office, cafeteria, Food industry-Laboratory etc.)
- Easy to clean:** stainless steel pan, its smooth surfaces make it simple to clean
- Easy to read:** 6 digits 25mm digits high LCD display, with white backlight
- Optional rear display,** stainless steel pan
- Full function:** unit change, tare, zero

## Technical Data

- Display:** LCD display, digit height 25mm, with three color LED backlight
- Capacities:** 3kg~25kg
- Housing:** ABS plastic
- Dimensions:** 243×238.9×157.6mm
- Pan size:** 230×190mm
- Net weight:** 3.2kg
- Gross weight:** 3.8kg
- Power:** AC adapter (100~240VAC/12V500mA),

rechargeable battery 6V/4Ah, battery operation time: 70 hours

**Operation temperature:** -10°C~40°C

## Accessories

- Rear display
- Stainless steel pan

## Standard

# CSZ Compact Weighing Scale

## Features

**Modern, ergonomic design** and a housing which is even more compact, supporting efficient operation and saving space

**Easy to read:** 6 digits 25mm digits high LCD display, with white color LED backlight

**Easy to clean:** stainless steel pan

**High mobility:** AC adapter/rechargeable battery powered

**RS-232 interface:** optional RS-232 interface, can connect to PC

**Function:** tare, zero

## Technical Data

**Display:** LCD display, 25mm digit, with white LED backlight

**Power:** AC adapter (100~240VAC/12V500mADC), rechargeable battery (lead acid battery 6V/3.2Ah)

**Dimensions :** 288x313x108.8 mm

**Pan size:** 204x263mm

**Keyboard:** 2 membrane keys

**Net weight :** 3.0kg

**Gross weight :** 3.7kg

**Operation temperature:** -10°C/40°C

## Accessories

- RS-232 interface
- RS-232 cable for PC
- Rear display

# CSF Compact Heavy Weighing Scale

## Features

**An economical** general purpose instrument  
**Applications:** 1. Net/gross shift 2. Weighing unit conversion 3. Check weighing 4. RS-232 output is standard  
**Battery** provides up to 40 hours of continuous use (without backlight)

## Technical Data

**Display:** 22mm digit LCD display, with white LED backlight  
**Capacities:** 60kg-250kg  
**Platform size:** 370 x 370mm  
**Keyboard:** 6 keys (Membrane keyboard)  
**Housing:** ABS plastic  
**Max. Divisions:** 2x3,000e  
**ADC:** Sigma delta  
**ADC update:** ≤1/10 second  
**Operating Temp:** -10°C ~ +40°C  
**Gross weight:** 9.2kg

## Accessories

- TPuP Printer
- OS-2130D Printer

## Standard

Model	Weighing Capacity [Max]kg	Readability [d]g	Division	Approval
CSF-D-60k	60	10g   20g	2 x 3,000e	CE, OIML
CSF-D-150k	150	20g   50g	2 x 3,000e	CE, OIML
CSF-D-250k	250	50g   100g	2 x 3,000e	CE, OIML

# CSS-B Simple Compact Weighing Scale

## General Specifications

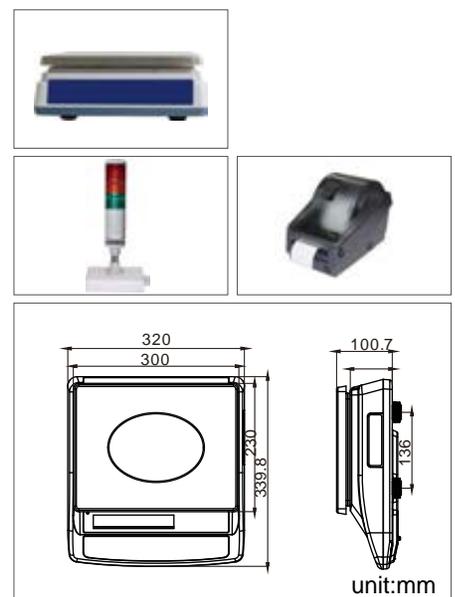

- Display 24mm digit LCD display, with white LED backlight
- Capacities 3kg~30kg
- Platform size 230 x 300mm
- Keyboard 4 keys(Membrane keyboard)
- Housing ABS plastic
- Max. Divisions 15,000d
- ADC Sigma delta
- ADC update  $\leq 1/10$  second
- Operate Temp  $0^{\circ}\text{C} \sim +40^{\circ}\text{C}$
- Power AC adapter (12V/500mA), internal rechargeable battery (6V/4Ah)
- Gross weight 5kg

Model Name	Capacity	Readability	Division	Approx. weight	Approval
CSS-B-3K	3kg	0.2g	15,000d	5kg	CE
CSS-B-6K	6kg	0.5g	15,000d	5kg	CE
CSS-B-15K	15kg	1g	15,000d	5kg	CE
CSS-B-30K	30kg	2g	15,000d	5kg	CE

- Applications: 1. Tare 2. Check weighing 3. Weighing units conversion
- Battery provides up to 70 hours of continuous use (without backlight)

# CSS-x Compact Weighing Scales

## Features

- Easy to move:** battery operation, compact, light weight construction, it is suitable for the use in several locations (production, warehouse, logistic department etc.).
- Easy to clean:** stainless steel pan. Its smooth surfaces make it simple to clean
- Easy to read:** 6 digits 24mm digits high LCD display, with white color LED backlight
- High precision:** external resolution up to 1/150,000
- Full function:** unit change, accumulation, checkweighing, simply counting, percentage weighing.

**Check weighing:** a visual and sound signal helps with portioning, dispensing or grading

**Operation temperature:** -10°C~40°C

## Technical Data

- Display:** LCD display, digit height 24 mm, with white color LED backlight
- Power:** AC adapter (100~240VAC/12V500mA), lead acid battery (6V/4Ah), operation time: 70 hours
- Dimensions** 320(W)x340(D)x100.7(H)mm
- Pan size:** 230x300 mm
- Net weight:**3.7kg
- Gross weight:**4.4kg

## Accessories

- Rear display
- RS-232 interface can connect to PC or printer.
- RS-232 cable for PC
- RS-232 cable for printer
- Label printer
- Mini printer
- 3 color light tower

# CSQ Compact Precision Weighing Scales

## Features

**Easy to move:** battery operation, compact, light weight construction, it is suitable for the use in several locations (production, warehouse, logistic department etc.).

**Easy to clean:** stainless steel pan. Its smooth surfaces make it simple to clean

**Easy to read:** 6 digits 24mm digits high LCD display, with white color LED backlight

**High precision:** external resolution up to 1/60,000

**Full function:** unit change, accumulation, checkweighing, simply counting, percentage weighing.

**Check weighing:** a visual and sound signal helps with portioning, dispensing or grading

## Technical Data

**Display:** LCD display, digit height 24 mm, with white color LED backlight

**Power:** AC adapter (100~240VAC/12V500mA), lead acid battery (6V/4Ah), operation time: 70 hours

**Dimensions** 320×340×101 mm

**Pan size:** 230×300 mm

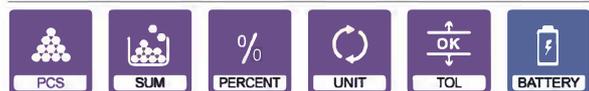

**Net weight:** approx. 5.1 kg

**Operation temperature:** -10°C~40°C

## Accessories

- Rear display
- RS-232 interface can connect to PC or printer.
- RS-232 cable for PC
- RS-232 cable for printer
- Label printer
- Mini printer
- 3 color light tower

# CSQ-U Ultra-Precision Compact Weighing Scale

Multifunctional Industrial Scale with High Capacity

## Features

### \* High Resolution, Upgrade up to 1/300,000

The CSQ-U series combines the latest weighing chip with new developed software offering a competitive performance weighing, internal resolution is up to 4 million divisions, external resolution is up to 300,000 divisions.

### \* Higher Cost Performance

We break the technical bottleneck in traditional analog load cell and offer the advantage of comprehensive linearity and temperature compensation, which provide users competitive performance at an economical price .

### \* Compact Design, Easy to Operate

Durable construction, large weighing surfaces with stainless steel pan, that is easy to clean, the balance is equipped with an easy-to-read, white bright backlight display, which make it incredibly easy to operate

### \* Multifunctional Use For a Variety of Applications

CSQ-U series offering high accuracy and repeatability, it is equipped with basic weighing, check weighing, accumulation, parts counting and percentage weighing for applications in production, industrial and warehouse settings.

### HBM High Precision Load Cell

The balance is equipped with HBM high precision load cell, it is extremely accurate and durable, ensures that the balance provide a reliable results.

### Easy Communication

The balance can also be connected printers or PC via its standard RS-232 port for data transfer, making it ideal for routine weighing applications.

### Back Office Management Software

Our software allows you to transfer data in real time , compatible with Microsoft Windows.

## CSQ-U Ultra-Precision Compact Weighing Scale

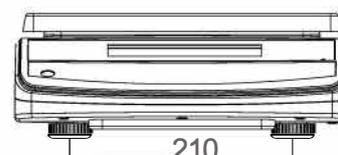

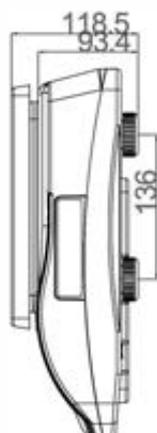

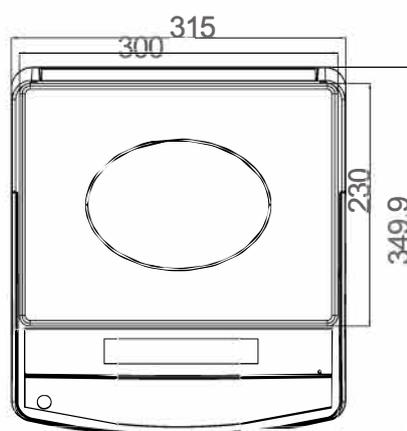

CE

### Technical Data

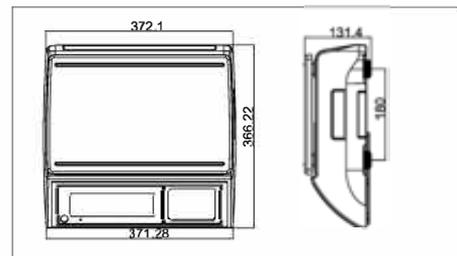

Item	Specification
Model	CSQ-U-30k
Capacities	30 kg
Readabilities	0.1 g
Max. Divisions	300,000d
Pan Size	230 x 300mm
Power Supply	Input :100~240VAC 50~60Hz, Output: DC 12V 500mA
Battery	6V 4Ah lead acid rechargeable battery
Display	16.5mm digit LCD display with white LED backlight
Interface	RS232
Housing	ABS plastic housing, Stainless steel pan
Keyboard	7 membrane keys
Units	g/g(hi resolution)/ct/lb/oz/d/gn/ozt/dwt/mom/tl.t/tl.h/tlj/t/bt/n
Applications	Basic weighing, Parts counting, Percent weighing, Accumulation
Option	Bluetooth 5.0 , Under hook
Net Weight	4.2 kg
Gross Weight	5.1 kg
Volume	0.033m <sup>3</sup>
Dimension (W x D x H)	315 x 350 x 120mm
Packaging (W x D x H)	445 x 365 x 205mm±3mm
Operating Conditions	Temperature : 5°C~35°C, Humidity : 5%~85% R.H.

### Dimension(mm)

# CSB Compact Weighing Scale with Big Display

## Features

**Easy to clean:** stainless steel pan. Its smooth surfaces make it simple to clean

**High precision:** external resolution up to 1/45,000

**Full function:** unit change, accumulation, checkweighing, simply counting, percentage weighing.

**Check weighing:** a visual and sound signal helps with portioning, dispensing or grading

## Technical Data

**Display:** LCD display, digit height 52 mm with white color LED backlight

**Power:** AC adapter (100~240VAC/12V500mA), lead acid battery (6V/4Ah), operation time: 70 hours

**Dimensions:** 371x 366 x132 mm

**Pan size:** 240x370 mm

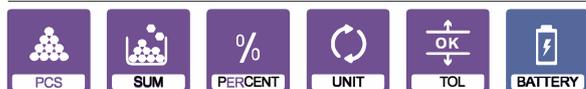

**Net weight:** approx. 5.8 kg

**Operation temperature:** -10°C~40°C

## Accessories

## CSB-PD Compact Weighing Scale with Big Display and Printer

Economical Printing Weighing Scales for Basic Industrial Applications

### Features

**\* Compact Design**

Constructed of high-impact ABS plastic, highly durable to use. It can be placed on the level surface

**\* Clearly LCD Display**

Results are shown clearly with LCD display, easy to read with white LED backlight.

**\* Five application modes**

Weighing, parts counting, percent weighing, check weighing and accumulation.

**\* Rechargeable Battery**

Internal rechargeable lead-acid battery, it can be worked 90 hours of continuous use with full charged.

#### Built-in Thermal Printer

Built-in thermal printer, easy to load, it supports to print out label and receipt format, bar code and QR code can be shown on the format.

#### Communication Port

Easy access communication port including RS232 interface for printing or connection to PC.

#### Multiple Use for a Variety of Application

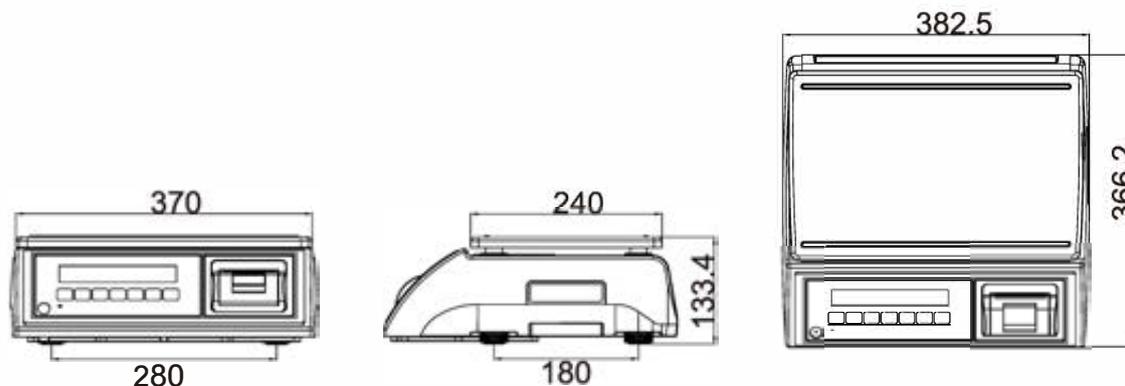

It is equipped with basic weighing, check weighing, accumulation, parts counting and percentage weighing for applications in production, industrial and warehouse settings.

### Dimension(mm)

# CSR Compact Weighing Scale with Round Pan

## Features

### Stainless steel pan

An economical general purpose instrument

**Applications:** 1. Net/gross shift 2. Weighing unit conversion 3. Check weighing 4. Accumulation

**Battery** provides up to 40 hours of continuous use (without backlight)

**Standard RS-232** to connect to computer or printer

## Technical Data

**Display:** 22mm digit LCD display, with white LED backlight

**Capacities:** 3kg, 6kg, 15kg

**Keyboard:** 6 keys (Mechanical switch)

**Housing:** ABS plastic indicator

**Max. Divisions:** 30,000d; 6,000e; 2x3,000e

**ADC:** Sigma delta

**ADC update:** ≤1/10 second

## Accessories

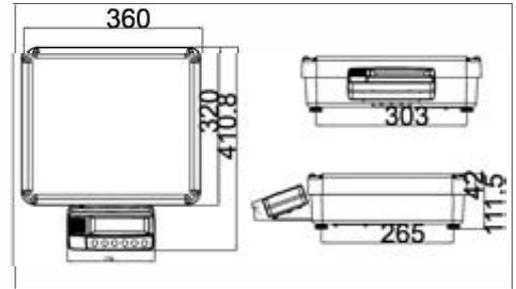

- TPuP Printer

# CSH High Cap & High Res Compact Weighing Scale

## Features

**Easy to move:** battery operation, compact, light weight construction, it is suitable for the use in several locations (production, warehouse, logistic department etc.)

**Easy to clean:** stainless steel pan, Its smooth surfaces make it simple to clean

**Easy to read:** 6 digits 22mm digits high LCD display, with white color LED backlight

**High precision:** external resolution up to 1/60,000

**Full function:** unit change, accumulation, checkweighing

**Check weighing:** a visual and sound signal helps with portioning, dispensing or grading

## Technical Data

**Display:** LCD display, digit height 22mm, with white LED backlight

**Capacities:** 6kg~60kg

**Pan size:** 320×360mm

**Housing:** ABS plastic indicator

**Net weight:** approx. 9kg

**Power:** AC adapter (100~240VAC/12V500mA),

Ni-MH battery (1.2V/2000mAh x 6), battery

**Operation time:** 40 hours (without backlight)

**Operation temp.:** -10°C~+40°C

## Accessories

- RS-232 interface can connect to PC or printer.
- RS-232 cable for PC
- RS-232 cable for printer
- Label printer
- Mini printer

# CS Series Compact Weighing Scales

SP-scale

**CS**

ABS Scale

**CS68**

ABS Waterproof Scale

**CT68**

SST Waterproof Scale

## Features

**IP68/IP69K Rating** (Excluding CS)

### Dust and Water Resistant

- Precise weighing in damp environments
- High durability, reducing maintenance costs
- Suitable for damp, dusty, and frequently cleaned scenarios

### NSF Approval

#### Meets Food Safety Standards

- Compliant with food safety standards, hygienic and reliable
- Smooth contact surface, easy to clean
- Suitable for food industries

### Application Scenarios

Seafood Market

Butcher Shop

Kitchen

Food Processing

# CS Series Compact Weighing Scales

SP-scale

## Light Option

### Dry Battery

#### Continuous Usage up to 700 Days without backlight

- Low power consumption
- Meet the needs of mobile weighing
- Suitable for scenarios without a fixed power source

\* With white backlight, check weighing by triangular symbols.

\* Option: AC adapter

## Premium Option

### Rechargeable Battery

#### Continuous Usage up to 100 Days without backlight

- Sustainable choice, Eco-friendly and cost-effective
- Efficient and convenient battery management
- Ideal choice for high-usage environments

### 3-Colour Backlight

#### Clear and Intuitive

- Ensure clear data visibility in any lighting environment
- Help you quickly identify weighing status
- Ideal choice for manufacturing facilities

## Colour Option

#### Sleek White Exterior

#### Choose Your Own Style

# CS Series Compact Weighing Scales

## COUNTING SCALES

# CSC-1 Piece Counting Scales

## Features

**High mobility:** rechargeable battery operation, compact, light weight construction, it is suitable for the use in several locations (production, warehouse, logistic department etc.)

**Precise counting:** The automatic reference weight optimization of reference weight gradually improves the average piece weight value accuracy

**High precision:** external resolution up to 1/60,000

**Unit weight input or sample operation**

**Three displays** for weight display (verifiable), reference weight, total pieces

**Audible Fill-to-target:** target quantity or target weight can be programmed, e. g. for checkweighing. When the target value is reached, a sound signal will be sent

**Counting results memory:** adds up all individual piece counts, result is shown in total weight and total pieces

## Technical Data

**Display:** LCD display, digit height 15mm, with white color LED backlight

**Power:** AC adapter (100~240VAC/12V500mA), lead acid battery (6V/3.2Ah), operation time: 60 hours

**Pan size:** 264x205mm

**Dimensions** 313×263×109mm

**Net weight:** approx. 3.2kg

**Operation temperature:** -10°C/40°C

## Accessories

- RS-232 interface can connect to PC or printer
- RS-232 cable for PC
- RS-232 cable for printer
- Mini printer
- Label printer

## General Specifications

- |                  |  |
|------------------|--|
| • Display        | 20mm digit LCD display, with white LED backlight               |
| • Capacities     | 6kg~45kg   |
| • Pan size       | 240 x 370mm  |
| • Keyboard       | 25keys(Mechanical switch)                                      |
| • Housing        | ABS plastic  |
| • Max. Divisions | 30,000d  |
| • ADC update     | ≤1/10 second   |
| • Operate Temp   | 0°C~+40°C  |
| • Power          | AC adapter (12V/500mA), internal rechargeable battery (6V/4Ah) |
| • Gross weight   | 5.8kg  |

- Programmable to meet your needs
- Application: 1. Parts counting 2. Accumulating memory  
3. Preset count with alarm  
4. Up to 100 PLUs with description
- Dual channel interface, connect external platform
- Optional USB interface
- Optional bluetooth
- Battery provide up to 70 hours of continuous use(without backlight)
- Optional RS-232 interface can connect to computer or external printer

## Features

- High precision:** external resolution up to 1/60,000
- Capacity display:** A bar lights up to show how much of the weighing capacity is still available
- Draft shield standard** on models capacity below 1500g
- Function include:** simply counting, percentage weighing, weighing unit change, accumulation
- Rich interface:** standard RS-232 interface, connect to PC or printer, optional Bluetooth and USB interface
- When connect with additional remote display kit (for customer), can be "direct sale to public"

## Technical Data

- Display:** LCD display, digit height 16.5 mm, with white color LED backlight
- Power:** AC adapter (100~240VAC/12V500mA), rechargeable battery (lead acid 6V/1.2Ah), operation time: 30 hours
- Pan size:** c120/124x144mm
- Dimensions:** 200x250x154mm (with wind shielding)
- Net weight:** 2.7kg (without draft shield) / 2.9kg (with draft shield)
- Operation temperature:** -10°C/40°C

# SPP-2 Precision Balance

Precision balance setting the new standard for accuracy and precision

## Features

### \* Full View Angle Display

Full View Angle Displays, with good graphic resolution and brightness, allow the content of the display to be visible from any angle.

### \* Powerful Back Office Management Software

The management software can display the weight in real time, and can be used as a remote device to perform ZERO and TARE operation. It provide users to manage the PLU, user and customer information,ect. Transferring the weighing data from scales through the method of manual, automatic or time interval.

### \* Higher Cost Performance

We break the technical bottleneck in traditional analog load cell and offer the advantage of comprehensive linearity and temperature compensation, which provide users competitive performance at an economical price.

### \* Multiple Use For a Variety of Applications

SPP-2 series offering high accuracy and repeatability for applications in laboratory, industrial and education settings.

### Easy Communication

Multiple connectivity options, RS-232 and USB device ports, Bluetooth and provide versatility and flexibility for a variety of applications.

### Remote Display

Connecting the remote display with the balance via RS232 port for external use (Option).

### HBM High Precision Load Cell

The balance is equipped with HBM high precision load cell, it is extremely accurate and durable, ensures that the balance provide a reliable results.

### Back Office Management Software

PC software allows you to transfer data in real time ,compatible with microsoft windows.

# SPP-3 Precision Balance

Affordable Balance with High Accuracy

## Features

### \* High resolution, upgrade up to 1/600,000

The SPP-3 series combines the latest weighing chip with new developed software offering a competitive performance weighing, internal resolution is up to 4 million counts, external resolution is up to 600,000 divisions.

### \* Powerful Back Office Management Software

The management software can display the weight in real time, and can be used as a remote device to perform ZERO and TARE operation. It provide users to manage the PLU, user and customer information,ect. Transferring the weighing data from scales through the method of manual, automatic or time interval.

### \* Higher Cost Performance

We break the technical bottleneck in traditional analog load cell and offer the advantage of comprehensive linearity and temperature compensation, which provide users competitive performance at an economical price.

### \* Multiple Use For a Variety of Applications

SPP-3 series offering high accuracy and repeatability for applications in laboratory, industrial and education settings.

#### HBM High Precision Load Cell

The balance is equipped with HBM high precision load cell, it is extremely accurate and durable, ensures that the balance provide a reliable results.

#### Easy Communication

Multiple connectivity options, RS-232 and USB device ports, Bluetooth and provide versatility and flexibility for a variety of applications.

#### Back Office Management Software

PC software allows you to transfer data in real time ,compatible with microsoft windows.

# SPP-4 Precision Balance

High-Resolution Precision Balance with Automatic Internal Adjustment

## Features

### \* High resolution, upgrade up to 1/600,000

The SPP-4 series combines the latest weighing chip with new developed software offering a competitive performance weighing, internal resolution is up to 4 million divisions, external resolution is up to 600,000 divisions.

### \* Powerful Back Office Management Software

The management software can display the weight in real time, and can be used as a remote device to perform ZERO and TARE operation. It provides users to manage the PLU, user and customer information, etc. Transferring the weighing data from scales through the method of manual, automatic or time interval.

### \* Higher Cost Performance

We break the technical bottleneck in traditional analog load cell and offer the advantage of comprehensive linearity and temperature compensation, which provides users competitive performance at an economical price.

### \* Automatic Internal Adjustment

Automatic internal adjustment time-controlled every 2 hours. Guarantees high degree of accuracy and makes the balance independent of its location.

### Easy Communication

Multiple connectivity options, RS-232 and USB device ports, Bluetooth, provide versatility and flexibility for a variety of applications.

### Remote Display

Connecting the remote display with the balance via RS232 port for external use (Option).

### Reliable weighing load cell

The load cell can provide a reliable results, and the built-in overload protection ensures that the balance maintains a long service life.

### Back Office Management Software

PC software allows you to transfer data in real time, compatible with Microsoft Windows.

# SPP-5 Precision Balance

Multifunctional Industrial Scale with High Capacity

## Features

### \* High Resolution, Upgrade up to 1/300,000

The SPP-5 series combines the latest weighing chip with new developed software offering a competitive performance weighing, internal resolution is up to 4 million divisions, external resolution is up to 300,000 divisions.

### \* Higher Cost Performance

We break the technical bottleneck in traditional analog load cell and offer the advantage of comprehensive linearity and temperature compensation, which provide users competitive performance at an economical price .

### \* Compact Design, Easy to Operate

Durable construction, large weighing surfaces with stainless steel pan, that is easy to clean, the balance is equipped with an easy-to-read, white bright backlight display, which make it incredibly easy to operate .

### \* Multifunctional Use For a Variety of Applications

SPP-5 series offering high accuracy and repeatability, it is equipped with basic weighing, check weighing, accumulation, parts counting and percentage weighing for applications in production, industrial and warehouse settings.

### HBM High Precision Load Cell

The balance is equipped with HBM high precision load cell, it is extremely accurate and durable, ensures that the balance provide a reliable results.

### Easy Communication

The balance can also be connected printers or PC via its standard RS-232 port for data transfer, making it ideal for routine weighing applications.

### Back Office Management Software

PC software allows you to transfer data in real time, compatible with Microsoft Windows.

## MEDICAL SCALES

# SPM-BS Baby Scale

## Features

**Approved as a medical device** according to 93/42/EEC

**Popular in pediatrics**, because it has a large weighing pan, which is ergonomically rounded and therefore ideally suited for weighing neonates

**Robust ABS plastic**, for easy and hygienic cleaning Secure and non-slip positioning with rubber feet Function include: zero, tare, drinking, hold

**Special function for neonatology centers:** Difference function for calculating the weight gain before and after feeding

**Hold function:** when patients do not lie completely still, a stable weight is calculated using an average weight and this is then

“frozen”. weight and this is then “frozen”. This means that you have sufficient time to attend to the young patient first and then take the weight reading in peace

**Can select with** height measurement or without height measurement models,

**Removable baby tray**, when the baby grew up, can take stand on weighing scales

rechargeable battery (Ni-MH 1.2V 2000mAhx6, size AA), operating time up to 40h without backlight, charging time approx. 12 h

**Net weight:** 5.5 kg

## Technical Data

**Display:** LCD display, digit height 25 mm, with white color LED backlight

**Baby pan:** 600×280 mm

**Dimensions:** 600×400×110 mm

**Power:** AC adapter (100~240VAC/12V500mADC),

## Accessories

- Foot/head rest to fix to the lying surface for even more safety when weighing small children, scope of delivery: 1 head rest and 1 foot rest,

# SPM-PS Personal Scale

## Features

**Approved as a medical device** according to 93/42/EEC

**The best seller for doctor's surgeries, chemists and hospitals:** easy to use with no time wasted – simply tap on it, stand on it, read the weight

**Robust design for daily use** in a professional environment

**Ergonomically optimized design**

**For easy and hygienic cleaning**

**Secure and non-slip positioning with**

height-adjustable rubber feet

**Large platform with** non-slip and wear-resistant surface made of plastic, to provide a

secure footing for patients

**Auto power off function**

## Technical Data

**Display:** Large LCD display, digits height 25 mm, with white color LED backlight

**Pan size:** 365×360 mm

**Dimensions:** 495×360×80 mm

**Net weight:** 10 kg

**Power:** AC adapter

(100~240VAC/12V500mADC), rechargeable battery (Ni-MH 1.2V 2000mAhx6, size AA),

operating time up to 40h without backlight,

charging time approx. 12 h

**Operation temperature:** -10°C/40°C

# SPM-PS Personal Scale

## Features

**Approved as** a medical device according to 93/42/EEC

**Optional second display** on the back of the balance, which makes it easy for both the patient and the doctor or nursing staff to read the weight

**SPM-PS1 model has an elegant height measuring stick** integrated into the column, which can be pulled out for use and which has a sturdy plastic head rest and a measuring range from 88–205 cm

**The ergonomically optimized shape** and robust design mean that this range is ideal for daily use in a professional environment

**Secure and non-slip positioning with** height-adjustable rubber feet.

**Large platform with** non-slip and wear-resistant surface made of plastic, to provide a secure footing for patients

**Function include:** BMI, mother & child, hold  
**Hold function:** When patients do not stand completely still, a stable weight is calculated using an average weight and this is then "frozen". This means that you have sufficient time to attend to the patient first and then take the weight reading in peace

**Mother and child function:** the mother's weight will be taken and then the scale will be reset to zero at the push of a button. Then the mother and baby can be weighed together. The weight of the child will now be shown on the display. This is particularly good for infants, as this way they can be cradled, safe and sound, in the arms of their mother while being

weighed

**BMI function** to determine under weight / normal weight / surplus weight

**Easy to transport** thanks to the two integrated transport wheels

**With height measurement model** or without measurement model selectable, indicator connect to platform by screw cable or pole selectable

## Technical Data

**Display:** Large LCD display, digits height 25 mm, with white color LED backlight

**Power:** AC adapter (100~240VAC/12V500mADC), rechargeable battery (Ni-MH 1.2V 2000mAhx6, size AA), operating time up to 40h without backlight, charging time approx. 12 h

**Pan size:** 365×360 mm

### Dimensions

365×570×2134 mm (with extracted height rod),

365×570×1030 mm (without height rod)

**Net weight:** approx. 12 kg

# SPM250 Medical Chair Scale

## Features

**Approved as a medical device** according to 93/42/EEC

**This chair scale is the ideal measuring instrument** for retirement homes, rehabilitation centers and clinics with lots of patients, and can handle weighing overweight persons weighing up to 250 kg

**Mobile version with** steerable rollers and particularly convenient locking brakes

**With its four wheels**, this chair scale provides maximum mobility in bringing the scale to the patients. **This ensures more efficient** use of time for the clinic staff and greater safety for the patients, who can be weighed in their familiar environment

**The rollers, with their large diameter**, make it easier to get over door thresholds, edges and across the gaps into elevators

**For fragile patients**, the comfortable, ergonomically optimized seat offers secure support during weighing

**Because of the clearly contrasting black color** of the seating surface, footrests and armrests ideally suited for use with dementia patients

**Two foldable armrests and footrests** make transfers into the chair easier. Ideal for overweight patients or barrier-free use, e.g. for transfers from a bed to the scale

**Function include hold, BMI**

**Hold function:** When patients do not sit completely still, a stable weight is calculated using an average weight and this is then "frozen". This means that you have sufficient time to attend to the patient first and then take the weight reading in peace

**BMI function** to determine underweight/normal weight/surplus weight

## Technical Data

**Display:** LCD display, digits height 25 mm, with white color LED backlight

**Dimensions:** 625×990×985 mm

**Power:** AC adapter (100~240VAC/12V500mADC), rechargeable battery (Ni-MH 1.2V 2000mAhx6, size AA), operating time up to 40h without backlight, charging time approx. 12 h

# SPM360 Wheelchair Platform Scale

## Features

**Approved as** a medical device according to 93/42/EEC

**Especially suitable for** weighing patients in wheelchairs, because the low-profile platform can be approached from either side

**The large steel weighing plate** also makes it ideal for weighing obese patients

**Both access ramps and the handrail** can be folded up quickly and easily, e.g. for transportation

**Function include hold, BMI**

**Hold function:** When patients do not stand or sit completely still, a stable weight is calculated using an average weight and this is then "frozen". This means that you have sufficient time to attend to the patient first and then take the weight reading in peace

**BMI function** to determine underweight/normal weight/surplus weight

## Technical Data

### Display:

LCD display, digit height 25 mm, with white color LED backlight

**Dimensions:** 1180×1000×1130 mm (without handrail)

**Power:** AC adapter (100~240VAC/12V500mA DC), rechargeable battery (Ni-MH 1.2V 200mAhx6, size AA), operating time up to 40h without backlight, charging time approx. 12 h

**Gross weight:** 125 kg

**Net weight:** 76 kg

**Operation temperature:** -10°C~40°C

## Accessories

- 1 handrail, for mounting display device. The handrail offers patients that extra level of safety when driving or stepping onto the weighing platform
- 2 handrails, for self-assembly on wheelchair platform scale, with this optional scale can be converted into a multi-function scale. This allows for the patients to be weighed while standing on the scale, with support from the handrail or weighed in a wheelchair Handrail set with folding patient seat,
- Factory Option, you can convert the wheelchair platform scale into a multi-functional scale. In this way, patients can be weighed standing up, or in seated position. If you fold the patient seat up, then a wheelchair can be pushed or driven onto the scale.

Model	Weighing Capacity [Max]kg	Readability [dg]	Verification value [e]g
SPM360	360	100	100

# SPM400 Handrail Scale

## Features

**Approved as** a medical device according to 93/42/EEC

**Ideal for** care homes, centers for geriatric medicine, internal medicine and many more  
**The sturdy support** structure helps fragile and weak patients to stand safely and, at the same time, allows for a precise determination of the patients' weight

**Large surface**, for the patient to have the most secure footing, hygienic and easy to clean

**Easy to read**, big LCD display, with white color LED backlight

**Particularly easy access** to the platform through its low height of just 30 mm

**Function include Hold, BMI**

**Hold function:** When patients do not stand or sit completely still, a stable weight is calculated using an average weight and this is then "frozen". This means that you have sufficient time to attend to the patient first and then take the weight reading in peace

**BMI function** to determine underweight / normal weight / surplus weight

**Optional rear display**, which makes it easy for both the patient and the doctor or nursing staff to read the weight

**Dimensions:** 780×680×1100 mm

**Power:** AC adapter (100~240VAC/12V500mADC), rechargeable battery (Ni-MH 1.2V 200mAhx6, size AA), operating time up to 40h without backlight, charging time approx. 12 h

**Net weight:** 40 kg

**Operation temperature:** -10°C/40°C

## CRANE & HANGING SCALES

# SPK65-1 Crane Scales

**SPK65-1-LCD**

**SPK65-1-LED**

## Features

**Meet the requirements of** the standard EN 13155 (Non-fixed load lifting attachments / Breakage resistance) and EN 61010-1 (Electrical safety)

**Because of its stable construction and robust design**, it is ideal for continuous use in industrial environment

**High mobility:** rechargeable battery operation, compact, lightweight construction, it is suitable for the use in several locations (production, warehouse, dispatch department.)

**Easy to read:** big LCD display, digits high 30mm, with white color LED backlight(LCD) ; big LED display, digits high 1inch(LED)

**Function include** zero, tare, accumulation, hold (EC

type approved model don't have hold and accumulation function)

**Hold function:** When the weighing value remains unchanged the weight indicated on the display is automatically "frozen" until the Hold key is pressed (EC type approved model don't have this function)

**Safety:** Solid shackles, non-revolving, Hook with safety catch, revolving, aluminum die cast housing IP65 waterproof, outdoor use with peace of mind

## Technical Data

**Display:** LCD display, digit height 30 mm, bright backlight for easy reading of weighing results, even in poor lighting conditions(LCD); LED display, digit height 1inch(LED)

**Power:** Scale: Rechargeable Li battery pack internal, operating time up to 70 h, battery pack accessible from the outside, which means it is easy to replace  
Remote controller: dry battery cell, 12 V 23A

**Operation temperature:** -10 °C/40 °C

## Accessories

- Remote controller, operation distance up to 30 m. All functions can be selected (excl. ON/OFF)
- Bluetooth 5.0 can send data to computer , Wireless transmission support up to 30 meters in an obstacle-free environment
- WIFI (2.4GHz)

# SPK-3 Hanging Scales

## General Specifications

- Display 16.5mm LCD display
- Capacities 40kg~200kg
- Keyboard 3 keys (Mechanical switch)
- Housing ABS plastic
- Max. Divisions 2,000d
- ADC Sigma delta
- ADC update  $\leq 1/10$  second
- Operating Temp.  $0^{\circ}\text{C} \sim +40^{\circ}\text{C}$
- Power Dry battery (size AA 1.5V x 3)
- Gross Weight 0.65kg (including batteries)

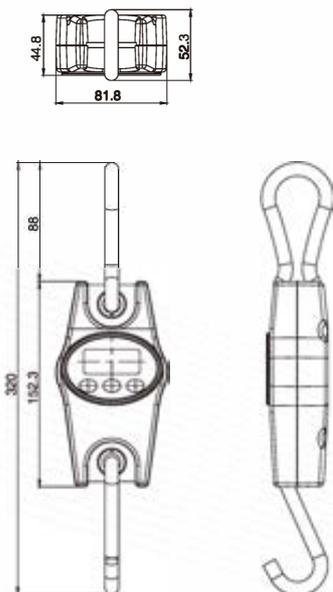

- Dry cell battery powered
- Selectable weighing unit (kg/lb)
- Applications: 1. Tare 2. Weighing unit conversion 3. Hold
- Safety overload: up to 150%

# SPK-4 Hanging Scales

## General Specifications

- Display 1.2" LED display or 25mm LCD display with LED backlight
- Capacities 600kg~10t
- Keyboard 4 keys (Mechanical switch)
- Housing Die-cast aluminum
- Max. Divisions 6,000d
- ADC Sigma delta
- ADC update  $\leq 1/10$  second
- Operating Temp.  $-10^{\circ}\text{C} \sim +40^{\circ}\text{C}$
- Power AC adapter (12V/500mA), Internal rechargeable battery (lead acid 6V/10Ah)

- Programmable to meet customer needs
- Applications: 1. Tare 2. Hold 3. Weighing unit conversion
- SGS 300% safety approval
- Battery provides up to 60 hours of continuous use
- Optional hand held remote control device

# CSL-HTO Hanging Label Printing Scale

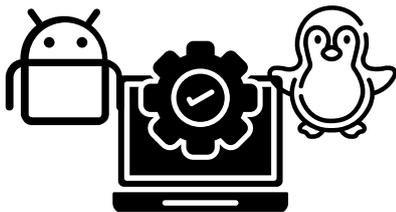

## Features

### Ergonomic and Hanging Design

- Ergonomic design keeps the display eye level.
- Hanging design save space and keep food moisture away.
- 10-inch dual-screen display with the resolution of 1280\*800px.
- Durable resistive touchscreens and efficient cassette system printer.

Rear display

Front display

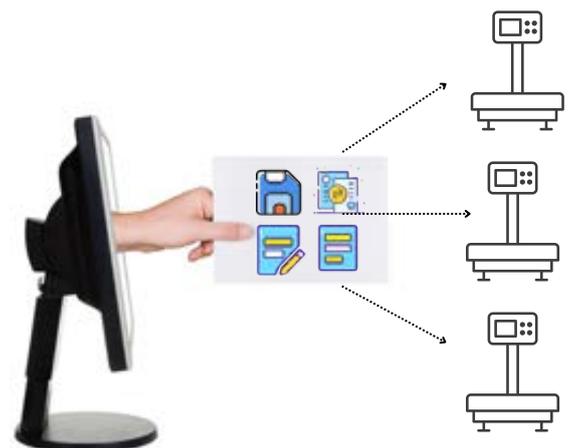

### Dual OS Support and Comprehensive Function

- Support both Android and Linux built-in system.
- Boast advanced functions: pre-pack mode, self-service mode, report management, etc.

### Powerful and Convenient Management

- Support with back-office software and online management platform. Check the connection status of the scale and upload/download data in real time. Streamline operations with one-click data deployment and centralized control.

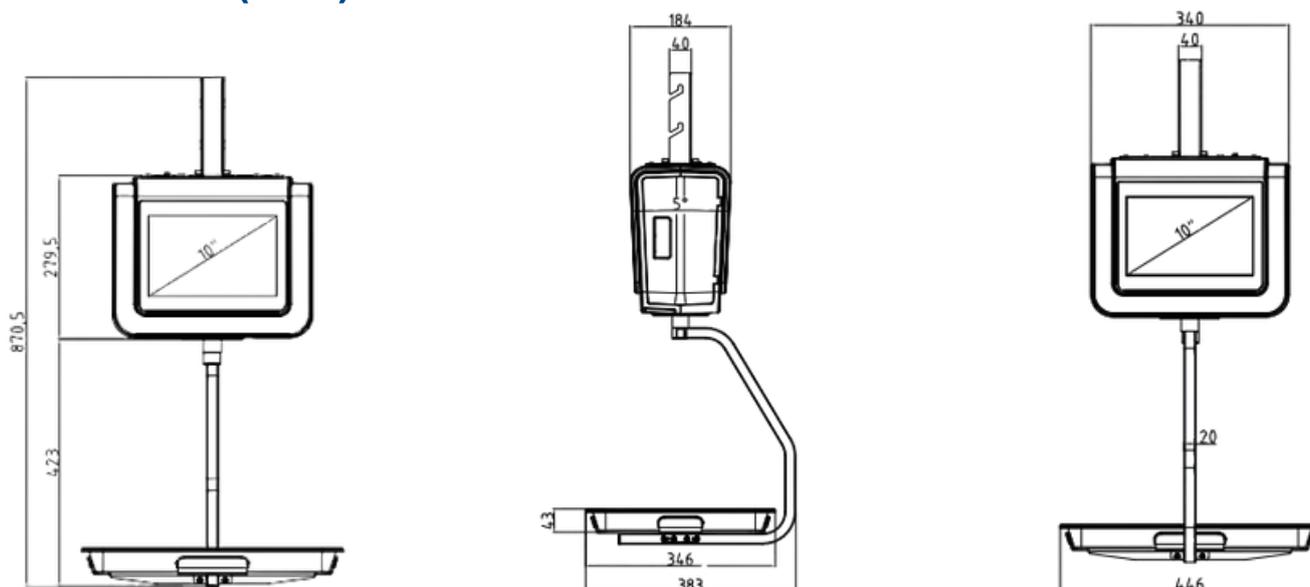

# CSL-HTO Label Printing Scale

## Specification

<b>Model</b>	CSL-HTO
<b>Capacity</b>	6kg/15kg
<b>Readability</b>	2g/5g
<b>Divisions</b>	2x3000e
<b>Housing</b>	ABS plastic indicator with #304 Stainless Steel Pan
<b>Tray bracket</b>	Can be rotated 360°
<b>Operator display</b>	10.1 inch TFT color touch display, Resolution: 1280x800px
<b>Customer display</b>	10.1 inch, Resolution: 1280x800px
<b>Pan size</b>	450x350x48 mm, SST
<b>Touch control mode</b>	Resistive touch screen
<b>Interface</b>	RS232x1; USB2.0x2; RJ45x1
<b>Temperature</b>	Working: -10°C~40°C, Storage: -20°C~60°C
<b>Humidity</b>	5%~85% R.H.
<b>Power</b>	AC: 100V~240V, 50~60Hz
<b>Weight</b>	Net: 11.5 kg
<b>Certification</b>	OIML, CE-EMC
<b>Printer</b>	Printing Speed: Max 125mm/s
	Paper width: Max 60±0.5mm
	Label Print Area: 56x110mm (Max Width x Length)
	Resolution: 8dots/mm

## Dimension(mm)

# CSL-HSO Smart Label Printing Hanging Scale

Affordable high quality label printing hanging scale for supermarket fresh sea foods & meats counters

## Features

### \* High Quality & Performance

Rugged structure is reliable and suitable for all environments. The internal high resolution ensures precision and stability performance, and comes with overload protection function.

### \* Multi Language Support

Support major languages for Display and Printing, English, French, Spanish, Arabic, Russian, Portuguese, German, Italian, Dutch, Korean, Greek, Swedish, Japanese, Thai, Hebrew and Chinese.

### \* Easy to Use, Large Capacity

Up to 9999 products and 80 direct PLUs can be stored, product names can search easily by using the PLU numbers or scanner.

### \* Back-office Software

Back-office software can easily connect to the scales and use for PLU updates, customizing print formats, preset keys configuration, generating reports.

### Dual-screen display

4.3" color operator display, resolution: 480x272px, 7" color advertising customer display, resolution:1024x600px.

### Ergonomic Design

Ergonomic design keeps the display eye level, the hanging platter for easy access, and platter keeps food moisture away. additionally entire structure ensuring the premium appearance.

### Cassette System

Easy to use, cassette system makes easier to load or change the media.

**Platform:** stainless steel weighing pan, painted steel or aluminum die cast base, silicone-coated aluminum load cell.

**When with pole, display angle can be adjusted**

Capacity from 30kg to 600kg, external resolution up to 1/15,000

**Full function:** unit change, accumulation, checkweighing, simply counting

**Check weighing:** a visual and sound signal helps with portioning, dispensing or grading

## Technical Data

**Display:** LCD display, digit height 24 mm, with white color LED backlight

**Power:** AC adapter (100~240VAC/12V500mA), lead acid battery (6V/4Ah), operation time: 70 hours

**Operation temperature:** -10°C~40°C

## Accessories

- RS-232 interface, can connect to PC or printer
- RS-232 cable for PC
- RS-232 cable for printer
- Mini printer
- Label printer
- 3 color light tower

# WDS Digital Utility Scale

CE

Experience reliable durability and accurate measurements anytime, anywhere!

## Features

### 10x Overload Protection for Ultimate Durability

- Superior 10x overload protection ensures scale integrity.
- 1.5mm thick, high-strength painted carbon steel pan.
- Impact-resistant, three-layer assembly for enhanced strength.
- Built-in overload protection devices for added reliability.

### Versatile Dual Power Options

- Convenient power choices for every need.
- Operates on 4 AA alkaline batteries (not included) for up to 150 hours with backlight.
- USB-A to DC power supply for flexible usage.

### Wide-Angle LCD Display

- 25mm high digits for clear visibility from any angle.
- Effortless readability in any position.

### Multiple Application

- Perfect for warehouse shipping, receiving, and commercial weighing tasks.
- Ideal for a variety of general weighing needs.

#### RS232 Communication Port

Transmits weighing data to computers via RS232 interface.

#### Wall-Mounted Bracket

Multi-purpose design for wall or desktop placement.

#### Flexible Spiral Telescopic Cable

6.8mm wide, 2.4mm thick with RJ11 connectors for easy concealment and replacement.

## Specifications

Model	WDS-75K	WDS-200K
Capacity	75kg / 150lb	200kg / 400lb
Readability	0.05kg / 0.1lb	0.1kg / 0.2lb
Divisions	1500d	2000d
Weighing Units	kg/lb/oz/lb:oz	
Display	0.98 inch / 25mm digit height, 5-digit, 7-segment LCD Display with white LED back light	
Keypad	4 mechanical key	
Housing	ABS plastic indicator and mounting brackets Anti-slip painted carbon steel platform	
Cable Length	9.2 ft / 280 cm (9.8 ft / 300cm full extension)	
Stabilization Time	1 second	
Power	Input AC 100-240V, output DC 5V/1000mA (form of USB-A to DC)	
Battery (optional)	Alkaline dry battery (1.5Vx4 AA ) (Not included)	
Battery Life	Over 150 hours continuous use with backlight on Over 500 hours continuous use with backlight off	
Operation Temperature	0°C - 40°C / 32°F - 104°F	
Type of Load Cells	4 x fullbridge load cells	
Overload Protection	10+ times the maximum weighing load	
Communication port	RS232	
Function	Zero/Hold/Unit change	
Auto-Off Time	Auto-off = 3/10/15/30mins	
Net weight	3.8kg / 8.4lb	
Gross weight	4.3kg / 9.5lb	
Indicator Dimension (W x D x H )	213 x 115 x 52mm / 8.4 x 4.5 x 2.0inch	
Platform Dimension (W x D x H )	304.8 x 317.5 x 51.5mm / 12 x 12.5 x 2.03inch	
Approval	CE; UL certified power supply	

## Dimension(mm)

# FA Platform Base

## Features

**Aluminum die cast**, mild steel, structure selectable

**Stainless steel weighing plate**,

Aluminum load cell, stainless steel load cell selectable

Normal load cell, OIML load cell, NTEP load cell selectable

**Level indicator and leveling feet** for precise leveling of the scale

**Different load cell connection** selectable (DB9, 5/7/9 pin air connector)

**Different platform shape** selectable (square or rectangle)

**Different platform size** selectable (aluminum die cast can select 320x360,350x450mm, 420x520mm, other platform can select 300x240, 300x400, 400x500, 400x400 600x600)

**Cable length:** 3m

**Luxury model or economic model selectable**

**Customize** platform size, cable length and load cell connector

**Optional** pole bracket, pole

**Optional** status discharge kit and grounding connection

**Optional** load cell protection kit (only for aluminum load cell)

# FSRL-APO Recessed Load Ramp Floor Scale

	1010	1212
A	1000	1200
B	1000	1200
C	1500	1700
D	1100	1300
E	1600	1800
F	1200	1400

## Features

- Weighing bridge** made of non-slip corrugated steel plate, lacquered, two access ramps integrated, extremely resistant to bending
- Extremely flat construction** to facilitate access: access height only 45 mm
- 4 Load cells**, alloy steel, silicone-coated
- 5m load cell cable**

## Technical Data

- Capacity:** 600kg/1500kg
- Housing:** Mild steel with powder painting
- Max.Divisions:** 3,000e | 6,000d
- Load cell:** 4 x 350ohms
- Operate Temp:** -10 °C/40 °C
- Platform size:** 1000x1000 mm 1200x1200 mm

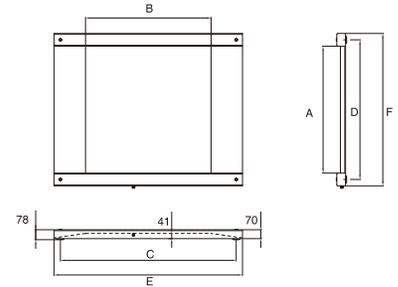

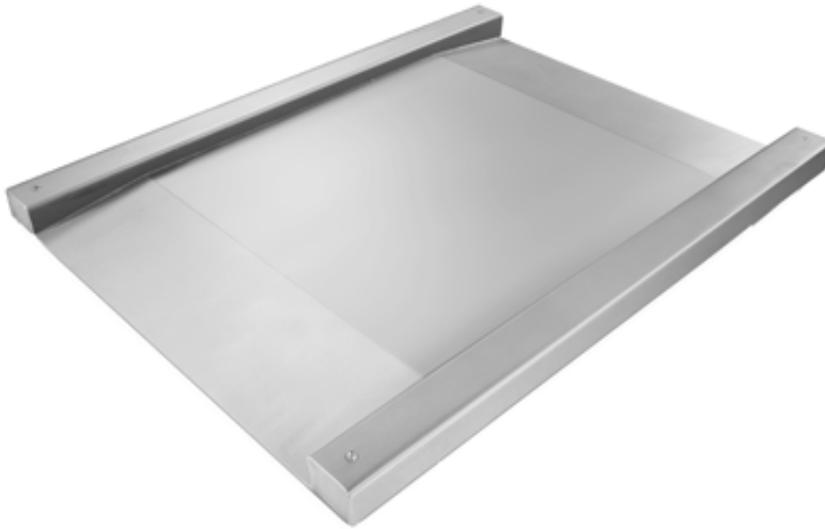

## Accessories/options

- Weighing indicator
- Indicator stand
- Indicator wall mount bracket

# FSR-RMP & FSR-RMS Floor Scale Ramps

## Category

Brand	Tscale
Product group	Access ramp

## Construction

Dimension (WxDxH)	1250x740x90 mm
Material	steel, lacquered or s/s selectable

## Packing & Shipping

Dimensions packaging (WxDxH)	1300x890x105 mm
Shipping method	Freight
Net weight approx.	60 kg
Gross weight approx.	60 kg
Shipping weight	59,5 kg

Access ramp incl.pair of base plates to facilitate access of e.g.wire cage trolleys,shelf trolleys, container trolleys,storage trolleys,sack trucks, transpallets,mobile containers,containersrefuse etc. Mild steel or stainless steel selectable

**Customization on Request**

by Soehnle Professional Asia Pte Ltd

## PALLET TRUCK SCALES

# PTS Pallet Truck Scale

## Features

**Integrated pallet truck and scale at one device,** save time and cost

**Function include:** net/gross, change weighing unit, accumulation

**Optional thermal printer,** print width 50mm, speed up to 80mm/s

**Check the weighing capacity** which is in use at the press of a button (net/gross weight)

**85mm Low fork height,** narrow (555mm) or wide (688mm) fork selectable

**Pivot range** 180°

**Castors:** Solid rubber on aluminum rims

**3 Load rollers:** Tandem tyres to overcome thresholds and obstacles more easily

**Operation temperature:** -10 °C/40 °C

**Power:** Rechargeable battery pack internal, Lead acid battery 6V/10Ah

**Dimension:**

Narrow version 1630x668x1210mm

Wide version 1560x555x1210mm

**Net weight:** 160kg

## Technical Data

**Display:** LCD display, digit height 52 mm with white color LED backlight

## Accessories

- Optional thermal printer

# PTB Pallet truck Scale

## Features

Integrated pallet truck and scale at one device, save time and cost  
 Function include: net/gross, change weighing unit, accumulation  
 Check the weighing capacity which is in use at the press of a button (net/gross weight)  
 85mm Low fork height, narrow (555mm) or wide (688mm) fork selectable

Pivot range 180°  
 Castors: Solid rubber on aluminum rims  
 3 Load rollers: Tandem tyres to overcome thresholds and obstacles more easily

## Technical Data

Display: digit height 52 mm, LCD display with white LED backlight  
 Operation temperature: -10 °C/40 °C

Power: Rechargeable battery pack internal, Lead acid battery 6v/10Ah for TPB  
 Battery life: Approx.20 Hours (with backlight), Approx.40 Hours (without backlight)  
 Dimension: 1630x 555(688 for wide fork version) x 1210mm  
 Net weight: 160kg

|------------------|--|
| • Display        | 22mm digits high LCD display, with LED backlight   |
| • Capacities     | 1t, 2t   |
| • Keyboard       | 6 keys(Mechanical switch)  |
| • Housing        | Mild steel, ABS plastic indicator  |
| • Max. Divisions | 2,000d   |
| • ADC            | Sigma delta  |
| • ADC update     | ≤1/10 second   |
| • Operate Temp   | 0°C~+40°C  |
| • Power          | AC adapter (12V/500mA), optional Ni-MH batteries (1.2V/2000mAh x 6)  |
| • Gross Weight   | 150kg  |
| • Packing        | (Wide Fork) carton packing, dimension 0.82m <sup>3</sup> , 40 feet container can load 56 machine, 20 feet container can load 28 machine<br>(Narrow Fork) carton packing, dimension 0.60m <sup>3</sup> , 40 feet container can load 80 machine, 20 feet container can load 40 machine |

- Instant weight readings are available as soon as the forks are raised
- Application: 1. Weighing units conversion 2. Net/gross shift 3. Accumulation
- Easy access junction box
- Rugged construction for long life
- Rechargeable battery provide up to 40 hours of continuous use (without backlight)
